Santa Clara, CA - Regional Manufacturing Landscape

Get in Front of Northern California's Top OEMs

Santa Clara sits at the heart of one of the country's most concentrated advanced manufacturing regions. Silicon Valley and the greater Bay Area bring together global leaders in semiconductors and electronics, medical technology, aerospace and defense, electric and autonomous vehicles, industrial automation, and clean energy - supported by world-class engineering talent, research and a deeply connected supplier network.

INDUSTRY KEY

Medical · Electronics · Machinery · Aerospace / Aviation · Energy / Utilities · Government / Defense · Automotive
